To The Upper Verde Wild and Scenic Coalition

I write in enthusiastic support of the Coalition proposal requesting Congress to designate the upper Verde River, together with portions of Granite Creek and Sycamore Creek as a Wild and Scenic River.

This reach of the upper Verde drainage is one of the few remaining pristine rivers in our State. It features unique gallery forests of cottonwood, sycamore, alder and willow providing habitat for rare native fish, migratory birds and many other threatened and endangered species.

A Wild and Scenic designation will assure river flow, recreational opportunities and wildlife habitat for generations to come.

Sincerely,
